

Protect Your Identity and Credit Webinar

This free webinar, hosted by our Identity Theft Services partner, InfoArmor, can help you gain a better understanding of the risks and dangers of identity fraud.

- You'll learn how InfoArmor coverage can protect you and your family from the hassles, cost and inconvenience of identity theft and assist in recovering your credit and credentials if your identity is ever stolen.
- You'll also learn about services you might not even know came with your Identify Theft coverage, including a solicitation opt-out tool, a secure online vault, social media account monitoring and access to monthly credit scores. Some of these services require you to activate them, and this webinar will explain how to do that.

While this webinar is open to all employees and their spouses/domestic partners, the content is most helpful to those who are enrolled in (or are considering enrolling in) AECOM's Identity Theft Services benefit. You may enroll in this benefit as a new hire, during Benefits Open Enrollment or within 31 days of a [qualifying life event](#).

Register for the webinar by selecting a date and time below.

May 1
9 am - 10 am PT

May 22
