

ESPP Helpful Hints Guide

Purchase AECOM stock at a discount

The Employee Stock Purchase Plan (ESPP) gives you the chance to own AECOM stock and share in the success of our company. The plan lets you purchase shares of AECOM common stock at a 12% discount through after-tax payroll deductions, as a way to save and invest for your future.

There are six offering periods per year.

- You can enroll anytime and decide how much of your eligible pay (up to plan and IRS limits) you want to contribute to buy AECOM stock. Your enrollment must be completed by the 20th of an even month to participate in the following offering period. Visit benefits.ml.com for the current limits.
- When you are participating in an offering period, you can reduce or cancel your contributions, but increases aren't permitted, and stock purchases occur only during the purchasing periods.

It's easy to get started.

- You can enroll in the ESPP and manage your account through Merrill Lynch's website, Benefits Online®, at benefits.ml.com. You can use the same user ID and password you use for any other Merrill Lynch account you might have (such as your AECOM 401(k) account). If you are new to the site, click Create your User ID now and follow the prompts.
- On the "My Accounts" page, select "Enroll Now" below "AECOM Employee Stock Purchase Plan" and follow the prompts to make your contribution election.
- Once your contribution is saved, follow the next prompt to "Open a Brokerage Account."

[Click here for enrollment instructions](#)

It's a special kind of account.

- When you enroll in the ESPP, you are setting up a Limited Individual Investor Account (LIIA) through Merrill Lynch.
- This is a personal brokerage account and is separate from any other Merrill Lynch account you may have, like a 401(k).
- This is only used to deposit, hold or sell shares of AECOM stock that were purchased through the ESPP – it does not earn interest.

Choose your beneficiary.

Make sure you keep your ESPP beneficiary designation information up-to-date at benefits.ml.com.

There is no need to re-enroll.

- Once enrolled, you do not have to enroll again to keep participating.
- Your enrollment will automatically continue in future offering periods unless you cancel it.

Updating your contributions.

- You can reduce or cancel your ESPP contributions at any time, including during an offering period. If payroll processing has already begun for the last pay cycle in the offering period, your election change may not be accepted.
- You can increase your ESPP contributions for the next offering period, but you cannot increase during an offering period.

After your shares are purchased, they are yours to keep.

Once stock is purchased for you, it's deposited into your Merrill Lynch Limited Individual Investor Account (LIIA). You can keep it in your account, transfer it to another account or sell some or all of it — it's up to you.

For more information:

- See our more detailed [ESPP Guide](#).
- See the [ESPP prospectus](#).
- Call to speak with a Merrill Lynch representative, available 24 hours a day, seven days a week.
 - From the U.S., Puerto Rico and Canada, dial (877) MER-4ACM [637-4226].
 - From other countries, use the AT&T country code plus +1 (877) MER-4ACM [637-4226] or dial direct +1 (609) 818-8894.

IMPORTANT! If your name, address, phone number or email change

Due to the nature of your ESPP account, AECOM cannot update personal information on your behalf. You must:

- Update your information in the HR system via self service (or contact People Services for assistance);
AND
- Contact the Bank of America Merrill Lynch Call Center at 877.637.4226 (or + 1 609.818.8894 outside the U.S.) to update your ESPP account.
